The diagram illustrates a map projection transformation. On the left, a box contains a north arrow pointing upwards, labeled with the letter 'N'. To the right of this box is a large, bold, black text label 'Wapello'. Below the 'Wapello' label is a box containing a circle with a right-pointing arrow followed by a square, representing a transformation from a circular domain to a square one. To the right of this box is the word 'Mercator'.
